

Persona UX

Support App for Children with
Dyslexia

"I feel very embarrassed when the teacher makes me read in front of everyone and I make mistakes with words."

Sofia

Age: 9 años
Location: Valparaíso
Occupation: 4th grade student
Level: Primary User

DESCRIPTION

Sofía is a very shy girl who experiences a great fear of reading aloud in the classroom. Her reading difficulties have generated an involuntary isolation, and she prefers to go unnoticed to avoid teasing.

PERSONAL CHARACTERISTICS:

- Observant
- Empathetic
- Introverted

HOBBIES & INTERESTS:

- Drawing
- Taking care of pets

GOALS:

- Improve communication with peers and teachers.
- Integrate into the social group without feeling different.

CHALLENGES

- Overcome social barriers imposed by the fear of making mistakes in public.
- Manage emotional stress before language classes.

BUYING ROLES:

Passive user: Parents identify the need and make the decision

BUYER JOURNEY:

Passive user: Parents identify the need and make the decision

NEEDS

- A discreet and modern design to use the app in the classroom without drawing attention from classmates.

DATA SOURCES:

- Expertos
- Herramientas cualitativas
- Especialistas PIE

"I need an easy-to-use tool that restores my son's confidence and allows me to see that he is truly progressing."

Carolina

AGE 38 años
Location: Temuco,
Region de la Araucanía
Occupation: Directora
Level: leadership

DESCRIPTION

"Carolina works demanding shifts and has little time in the evenings. She wants to support her son with dyslexia, seeking to reduce arguments during homework time through a tool that delivers tangible results."

PERSONAL CHARACTERISTICS:

- Organized
- Protective
- Busy

HOBBIES & INTERESTS:

- Reading
- Family outings
- Listening to podcasts during her commutes.

GOALS

BUYING ROLES:

(Decision maker and buyer)

- Foster her son's language integration
- Boost her child's self-esteem in the school environment

BUYER JOURNEY:

(Problem awareness due to poor grades, recommendation from the psychopedagogue, price/quality evaluation, subscription purchase)

NEEDS

- "Talkback and auditory feedback features that give her the peace of mind that her child can navigate the app safely and correctly without her constant supervision. Having a library with Chilean texts to avoid having to manually search for and upload books from the national curriculum."

CHALLENGES

- Lacking the time and pedagogical tools to consistently support reading sessions.
- Feeling frustration, stress, and anxiety from seeing her son suffer due to poor grades

DATA SOURCES:

- Online communities
- Interviews

"I want to do my homework alone, without having to wait for my mom to read the school book to me at night."

Tomás

Age: 11 años

location: Santiago

Ocupation: 6th grade student

Level : Primary User

DESCRIPTION

"Tomás is a determined boy who is tired of relying on his parents to complete his schoolwork. He aims to study autonomously and finish school readings on his own, using the books provided by MINEDUC."

BUYING ROLES:

(Influencer: Asks his parents to download the tool)

BUYER JOURNEY:

(Problem awareness, teacher recommendation, trial usage, subscription request to parents)

PERSONAL CHARACTERISTICS:

- Independent
- Determined
- impaciente

GOALS

- Achieving the facilitation of his daily life
- Achieving a true understanding of what he reads without help

NEEDS

- An adaptive interface that he can configure to his liking.
- Physical text scanning functionality to digitize and process printed school worksheets.

HOBBIES & INTERESTS:

- Playing strategy video games
- Building Legos
- Riding a bicycle

CHALLENGES

- Dealing with frustration, stress, and anxiety when losing his place while reading long texts.
- Dependence on third parties to understand his homework/tasks.

DATA SOURCES:

- User interviews
- Contextual observation
- Key informants
